Strategy

Graffiti 2 Community Ministries is part of the Graffiti Network of ministries and churches. Graffiti Community Ministries has empowered children, youth, and adults on the Lower East Side of Manhattan for over forty years. The Graffiti Network describes their model of community transformation as *Upside Down*. This upside-down strategy begins with ministry—meeting the needs of a community. Ministry leads to faith. Faith leads to the growth of the church. The church at work in the community leads to transformation. For more information regarding this upside-down approach visit upsidedownlife.org

History

Graffiti 2 Community Ministries implemented this upside-down approach in the Mott Haven community of the South Bronx in August 2005. Initially meeting the needs of children, Graffiti 2 has since expanded its efforts to the whole family—children, teens, young adults, and adults. As a result of this ministry-first approach, a new church was planted in September 2008. That church has since formally constituted as Graffiti 2 Baptist Church.

Our Community

Graffiti 2 Community Ministries is located in the Mott Haven section of the South Bronx in New York City. Mott Haven has a rich history. Consider these interesting facts:

- Mott Haven was originally the plantation home of Gouverneur Morris (penman of the preamble to the Constitution).
- The U.S. Capitol dome was cast at the Janes and Kirkland foundry near 3rd Avenue and 149th Street.
- The Piccirilli family's studio was located at 142nd Street and Willis Avenue. Among the notable works they carved were the lions for the New York Public Library and the iconic sculpture of Abraham Lincoln at the Lincoln Memorial in Washington D.C.

Beginning in the 1900s, Mott haven became a home for new immigrants: German, Irish, Jewish, Puerto Rican, and now Mexican. At one time Mott Haven was a neighborhood of affluence. Alexander Avenue was nicknamed "Doctor's Row," and Willis Avenue was called the "Irish Fifth Avenue." The beautiful brownstones from this era still remain.

Since the 1970s Mott Haven has been identified as a community of need. Communities of need are areas of our cities and towns where people are particularly vulnerable to damaging outcomes. Research tells us that multiple risk factors have a cumulative effect on well-being. One risk has a negligible effect on well-being. Two or three risks increase the chance of damaging outcomes by four. Four or more risks increase the chance of damaging outcomes by ten (Citizens Committee for Children of New York, Keeping Track 2013).

Mott Haven's risk factors include education, safety, family, health, and environment. In the midst of these risk factors, 90,000 people (30,000 under the age of eighteen), call Mott Haven home. These individuals and families are the greatest asset to the community.

Our Programs

Children and Family Programs

- School Year
 - After-School Program: Graffiti 2 provides quality, safe, and fun after-school programming to the children of Mott Haven. Believing in the priceless value and unimaginable potential of each child, Graffiti 2 provides activities for children that will revitalize (build their minds and bodies), revive (strengthen their character, spirit, and personality) and revolutionize their lives, families, and community.
 - Parents Rock: Valuing family, Graffiti 2 works alongside parents to accomplish our mission within the community. Every parent with a child in the after-school program is required to make an investment—either by volunteering one day a week or by providing snacks. Each day children benefit from parents assisting with homework and activities. These parents are taking a firsthand role in revitalizing, reviving, and revolutionizing themselves, their children, and their community.
- Summer Programs
 - Summer Sports Camps: Graffiti 2 uses sports to build children and youth not just physically but mentally, emotionally, socially, and spiritually as well. Throughout the summer Graffiti 2 coordinates with volunteers from across the country to provide basketball, football, cheerleading, tennis, soccer and baseball camps to more than one hundred children in the Mott Haven community. Children not only learn valuable skills for playing the sports but are each equipped with the resources to continue play after camp is complete (i.e. basketballs, footballs, tennis racquets).
 - Summer Kids: For a four-week period each summer, Graffiti 2 provides Mott Haven children (1st–5th grade) an opportunity to broaden their horizons and experience new endeavors. Students are guided by volunteers and professionals in opportunities to enrich their life.
 - Summer Tots: For a four-week period each summer, Graffiti 2 provides Mott Haven preschool children (4–5-year-olds) fun activities designed for strengthening them physically, mentally, emotionally, socially, and spiritually.

Youth Programs

- G.S.A.L.T. (Graffiti Serving and Leading Teenagers): In a neighborhood with more than 10,000 students between the ages of 12 and 17 (Citizen’s Committee for Children of New York), Graffiti 2 is revitalizing, reviving, and revolutionizing the lives of teenagers. G.S.A.L.T. strengthens teens physically, mentally, emotionally, socially, and spiritually by providing a nurturing environment for teenagers to grow in responsibility, develop their leadership skills, nourish healthy peer relationships, and be accountable in school and life. Graffiti 2 encourages every teen to lead by serving. G.S.A.L.T. students mentor children in the after-school program and help with service projects around the community. Inspired by Matthew 5:13, which says, “You are the salt of the earth,” Graffiti 2 believes just like a little salt can change food in a big way, these teens are salt in Mott Haven—revolutionizing their community.
- G.S.A.L.T. Employment Program: The G.S.A.L.T. Employment Program provides a part-time job to students over the age of sixteen who have participated in the G.S.A.L.T. program for two years. G.S.A.L.T. employee positions are funded by pairing students with Sunday School classes, small groups, or churches. These groups send in financial support to cover the employment of the student. The student corresponds with these groups by sending letters, videos, and pictures.
